Ohio Men’s Action Network

The mission of the Ohio Men’s Action Network is to end relationship and sexual violence in Ohio.

The Ohio Men’s Action Network (OHMAN) is a network of men and women, as individuals and as representatives of local and state organizations, working to engage men and boys in efforts to prevent sexual violence; sexual exploitation; domestic, intimate partner, family and relationship violence and to promote equitable, non-violent relationships and a culture free of oppression.

We seek to create and support communities where all people can live free of violence within their relationships, and share in their commitment to respect, safety, and equality.

The New Playbook: Standing Strong to Promote Non-Violence is facilitated by Ohio Domestic Violence Network staff and consultants with expertise in violence prevention and engaging men.

Why Men?

One in four women in the United States will experience sexual assault, domestic violence, dating violence, or stalking in her lifetime. Through education and mobilization, men play an important role in making the world safer for women and girls as well as other men and boys in their lives.

OHMAN firmly believes that while most men are not violent, many men do not know how to address violence in their communities. By providing men with a wide range of opportunities and options to get involved, men will understand their crucial role in ending violence, including violence against women and know how to stand up and take action.
