HAS YOUR HEAD BEEN HURT?
It can affect your life in many different ways. Rest and time help, but you might need additional care, especially if your head has been hurt more than once.

Has your partner... 
- Hit you in the face, neck or head?
- Tried to choke or strangle you?
- Made you fall and you hit your head?
- Shaken you severely?
- Done something that made you had trouble breathing or black out?

Are you having physical problems?
- Headaches?
- Fatigue, feeling dazed, confused, or in a fog?
- Changes in your vision?
- Ringing in your ears?
- Dizziness or balance problems?
- Seizures?
- Pain in your head, face or neck?

Are you having trouble... 
- Remembering things?
- Paying attention or focusing?
- Getting things done?
- Organizing things?
- Following conversations?
- Feeling motivated?
- Controlling your emotions?
