- **WHAT**
  - **ABCDE Outcome Statements**
    - ABCDE Outcomes Development Worksheet and/or “Outcomes” column from your logic model

- **HOW**
  - **Evaluation Methods & Tools**
    - Evaluation Method(s) to be used:
      - Survey/Questionnaire
      - Focus Group Interview
      - Key-informant interview
      - Formal developmental or clinical assessment
      - Observation with structured protocol
      - Administrative Records
      - Other:

  - **Evaluation Timing & Design**
    - When will you administer the instruments?
      - Method #1:
        - Name of instrument being used:
        - Source of instrument(s) (check all):
          - Tools that came with curricula/model
          - Other external source (online, consultant, etc.)
          - Internally developed (“home grown”)
        - Describe any modifications being made to existing tools.

  - **Evaluation Participants/Sampling**
    - Who will participate in the method? How will they be selected?
      - Method #1:
        - All Participants Invited (“census”)
        - Some Participants Invited:
          - Purposive
          - Convenience
          - Random or stratified random
          - Cluster or stratified cluster

      - Method #2:
        - All Participants Invited (“census”)
        - Some Participants Invited:
          - Purposive
          - Convenience
          - Random or stratified random
          - Cluster or stratified cluster
