

5 QUICK TIPS:

Getting Started with the Online Learning Academy

Easily

Self-Register

As quick and easy as signing up for a webinar. Anyone can enroll in a course and access content instantly.

1

If all seats are "taken" try again later!

2

Our platform limits the number of users who can access content simultaneously. If it's busy try again soon. (We'll be monitoring closely and increasing seats if needed, too.)

Nothing Fancy

No complicated interface to learn. In a couple of clicks you are registered and viewing content.

3

More content premiering soon!

We are just getting started! Lots of courses are near completion and will be launched soon.

4

Certificates of completion

You did it! Customized certificates can be printed upon completion of a course!

5
